

THE LIVER QUARANTINE

"TAKING HIS MEALS OUT."

Hurried eating has ruined many a man's stomach. The digestion-destriving process is gradual, often unnoticed at first. But it is only a short time until the liver balks, the digestive organs give way, and almost countless ills assail the man who endeavors to economize time at the expense of his health.

A torpid liver causes a quarantine of the entire system. It locks in the diseased germs and body poisons and affords them full play, inviting some serious illness.

Families where August Flower is used, a sluggish liver and constipation are unknown, so are all stomach ailments, as well as indigestion, dyspepsia, heartburn, headaches and kidney and bladder affections. No well-regulated family should be without this standard remedy.

A Big Little Girl.

Miss Suddie Beam claims the distinction of being the largest girl of her age in Nelson county. She is 14 years old and weighs 201 pounds. She also possesses great strength, and recently lifted a barrel of sugar weighing 348 pounds with as much ease as a strong man. She is about 5 feet 3 inches in height and has gained 30 pounds the past year.—Kentucky Standard.

Indigestion Cured.

There is no case of Indigestion, Dyspepsia or Stomach Trouble that will not yield to the digestive and strengthening influence of Kodol Dyspepsia Cure. This remedy takes the strain off the stomach by digesting what you eat and allowing it to rest until it grows strong again. Kodol Dyspepsia Cure affords quick and permanent relief from indigestion and all stomach troubles, builds up the system and so purifies that disease can not attack and gain a foothold as when in a weakened condition. The constantly increasing use of Kodol Dyspepsia Cure by physicians of hospital and general practice of itself tells how this most wonderful modern discovery has proven to be the greatest digestant for the alleviation of a suffering humanity. Its many cures of both children and adults grows larger day by day.

It is said that the lady managers of the St. Louis Exposition returned over a quarter of the money given them to expend. According to ordinary practice, this is merely another instance showing woman's utter unfitness to enter the field of public life and practical politics.

The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey & Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons.

The patriotic American who desires to achieve notoriety as a mountain climber need not go to the Alps, for in the ascent of Mt. Hood, the loftiest peak of the Cascade mountains, which extend north and south across Oregon and Washington for 180 miles, he will find an ample outlet for his ambitions. Mt. Hood reaches an elevation of over 11,000 feet, thus ranking among the high peaks of the world.

Indigestion.

With its companions, heart burn, flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, sallow skin, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbsal treatment will cure all these troubles. 50c bottle. Sold by St. Bernard drug store.

The tipping habit is growing among the American people, according to figures of the bureau of statistics. The nation's drink bill has increased during the last year so that each of the 81,762,000 inhabitants is spending on an average of \$18.33 annually for stimulants, or \$91.65 for each family of five persons, which is an equivalent of one glass of beer a day for every one of the population. The use of whiskey increased from 1.01 gallons for each person in 1896 to 1.48 gallons in 1904. The consumption of wine in the same period shows a gain of 100 per cent.

TRAINED FORESTERS IN GREAT DEMAND.

The Supply Not Large Enough and Good Positions Await the Right Men.

Washington, D. C., July 1.—The demand for foresters is increasing rapidly both for State work and with private owners. Many States now have forest commissions, and several of them have State foresters. A trained forester at \$2,400 a year and two assistant foresters at \$1,200 each are wanted by California.

Wisconsin wants an assistant forester at \$1,500, Indiana a forester to take charge of its State reserve, and Washington offers \$1,800 a year for a trained forester. In many other States the advisability of creating the office of State forester has been under discussion this year, and it is only a matter of a few years when such an official will be considered a regular part of an efficient State government.

The demand for foresters by private timber owners is growing at a still more rapid rate. During the last twelve months 7 of the Bureau of Forestry force have left to take up work with such owners, and 4 have accepted public positions—two with Massachusetts, one with Connecticut, and the fourth with Ontario, Canada. A number of other requests from private owners can not be met because men are not available. The year before there were less than half as many applications for trained men. But the demand for trained specialists in this line has only begun.

Large lumber companies, great wood manufacturing concerns, owners of extensive forests, railroad companies, and others are taking a hitherto unknown practical interest in conservative forestry. They must have expert men to control their holdings. The result is that forestry is very rapidly taking its place as a recognized profession. A number of forest schools are training young men for this work, but the demand has outrun the supply.

What He Missed.

The President has ordered destroyed a set of photographs of his party taken while on his recent hunting trip near Glenwood Springs, Colo., because a young lady who joined the party and rode directly behind the President unwittingly exposed a pair of very pretty ankles. As she persisted in riding behind the President, one can easily understand his wrath on beholding in the pictures how much he had missed on the trip.—Cynthiana Democrat.

According to an English specialist who has made a careful study of the subject, the reason why women are better looking than men is because they are more indolent, and are not called upon to use their brains as much as men are. Hard intellectual work and assiduous attention to business, he says, are harmful so far as physical beauty is concerned.

FLOOD WIPES OUT A CITY

Guanajuato, a Mexican Mining Center. Flooded, and Many Lives Reported Lost.

Mexico City, July 3.—Reports are current here that from 100 persons upward, with one report claiming 1,000, have been drowned in a great flood at Guanajuato, a mining city, now the important seat of activity of several large American and British companies. No news has been received, and two reports are current. One says 1,000 persons were killed; another says that at least 100 were drowned. Late tidings are that Guanajuato is completely flooded, and water is already invading the higher parts of the town, while there is fear that Laolla dam has given way, which would mean complete and general ruin. The city is built in a great gorge in the mountains, and the streets ramble up the mountain side in picturesque fashion.

Little Fellow Terribly Burned.

Cured of Chronic Diarrhoea After Ten Years of Suffering.

"I wish to say a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mrs. Mattie Burge, of Martinsville, Va. "I suffered from chronic diarrhoea for ten years, and during that time tried various medicines without obtaining any permanent relief. Last summer one of my children was taken with cholera morbus, and I procured a bottle of this remedy. Only two doses were required to give her entire relief. I then decided to try the medicine myself, and did not use all of one bottle before I was well and I have never since been troubled with that complaint. One cannot say too much in favor of that wonderful medicine.

NO ACCOUNTING ON BOOKS

Forty-One Thousand Cash Represented By Slips of Paper.

Queer Transactions Unearthed in the Salmon Bank Examination at Clinton, Missouri.

Clinton, Mo., July 1.—Nearly \$41,000 have been taken from the cash of the Salmon bank since January 1 of this year for which there is no accounting on the books and nothing to show beyond a lot of memoranda slips left in one of the drawers in the bank's vaults.

They apparently represent cash given to Maj. Harvey Salmon and to Dr. George Y. Salmon, to Cashier Casey, representing their expenditures for ordinary expenses of the bank and for other purposes. Some of the items run as high as \$5,000, and some are unexplainable. They may be for account of the Tebo Land and Cattle Co., which was the concern of the elder Casey, and for which the bank was liable after his failure.

Those items which Examiner Cook can not figure out he will ask Cashier Casey to explain.

It is usual in banks which make slips for cash items to charge them on the books next day. The examiner is astonished that these were carried so long without posting.

CHICAGO HAS MUCH TO LEARN

Dalrymple, Glasgow Street Railway Expert, Speaks Out.

"I Never Imagined Any System of Tramways Could Be in Such a Deplorable Condition."

Glasgow, July 4.—James Dalrymple, the street railway expert, has returned from the United States. In discussing his visit to America he said that Chicago has a great deal to learn about municipalization. It has much arrears to wipe out before it can hope to keep pace with the growth of the idea of municipalization.

"If any municipal undertaking is to be successfully maintained in Chicago," he said, "THE CITY MUST ADOPT A VERY DIFFERENT SYSTEM FROM

JAMES DALRYMPLE. Who believes Chicago has a great deal to learn about municipalization. THAT PERMITTING POLITICAL CONSIDERATION TO INFLUENCE THE MUNICIPAL ADMINISTRATION."

Discussing Chicago tramways, Mr. Dalrymple said that the city tramway companies are so shamefully overloaded with capital that the companies have been unable to keep up the plants the result being that everything connected with the system is run down.

"I never imagined any system of tramways could be in such a deplorable condition. Protracted disputes between the companies and the municipality have contributed to produce the condition. There are many features of American tramways that are ahead of Glasgow's, but in other matters we have advanced further than the American cities.

"I MUST PRAISE CHICAGO'S TEMPERANCE. DURING MY ENTIRE STAY I NEVER SAW A DRUNKEN MAN."
